SUMMARY

Detail-oriented Logistics and Operations professional with 1 year of experience as an Inventory Controller at Express bees, with hands-on experience in inventory management, operational coordination, order processing, documentation, issue resolution, and cross-functional communication. Skilled in coordinating day-to-day logistics activities, maintaining accurate records, following up on operational requirements, and working in fast-paced environments.

Seeking to leverage my coordination, planning, communication, organizational, and logistics skills in the Dispatcher role at Krones, supporting service engineers, scheduling activities, work-order coordination, travel planning, and overall field service operations.

EDUCATION

East West Institute of Technology

MCA [Master of Computer Applications]

2024

EXPERIENCE

Inventory Controller – Logistics & Operations

Jan 2021 – Nov 2022

XpressBees

Bengaluru

a leading logistics company

- Managed day-to-day inventory control and logistics operations, ensuring accurate availability and movement of inventory.
- Coordinated with internal teams to support smooth order processing and timely operational activities.
- Monitored inventory levels, identified discrepancies, and followed up with relevant teams for timely resolution.
- Maintained accurate inventory records, operational documentation, and reports.
- Supported daily logistics activities in a fast-paced, time-sensitive environment, prioritizing tasks according to operational requirements.
- Coordinated with multiple stakeholders to resolve operational issues and minimize delays.
- Performed regular follow-ups on pending activities and ensured tasks were completed within required timelines.
- Used operational systems and Microsoft Excel/tools to maintain and update information accurately.
- Assisted in investigating inventory mismatches and implemented corrective actions in coordination with relevant teams.
- Supported team members with operational requirements and ensured continuity of day-to-day activities.
- Maintained a high level of accuracy, organization, and attention to detail while handling multiple tasks simultaneously.
- Followed company processes and safety/quality procedures while carrying out logistics and inventory activities.
